Complete and User-Friendly Workflow

Intuitive User Interface Design

HiTi P510K delivers the truly user friendly GUI (Graphic User Interface) for easy-to-use operation.

Complete Backstage Management

HiTi P510K offers the complete backstage management functions, such as selling price setting, color adjustment and administration authority, enabling owners to set up the kiosk in an easiest way.

World Leading Output Quality

10-bit Color Engine

By adding an all-new OEE II image processor, HiTi is leading the industry in providing 10-bit deep color performance and unparalleled RGB-Level.

10-bit processing = 1,024
R 1,024 x G 1,024 x B 1,024 = 1 Billion Color

Powered by HiTi Color

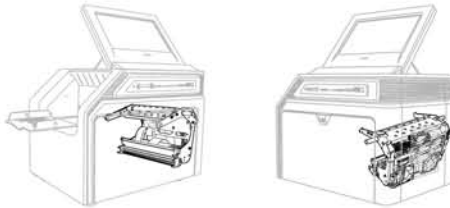

HiTi Color Technology, a HiTi exclusive color management system, has won 6 DIMA shoot-out awards and is acclaimed by photographic professionals from around the world.

Durable and Convenient Design

Improved Dust-Proof Housing

The Thermal Printing Head of the P510K photo kiosk is protected by an integrated dust cover, efficiently reducing contamination.

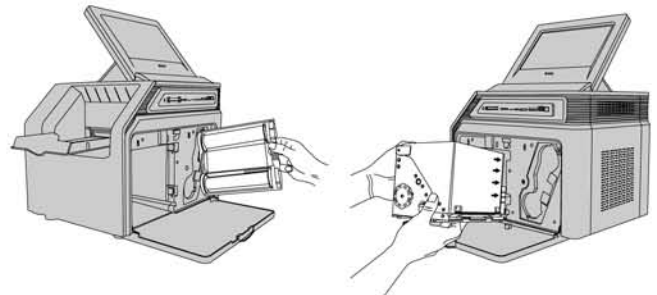

Lower Power Consumption

HiTi P510K delivers industry-leading performance and consumes less power. The total power consumption of HiTi P510K is about 350W, and it runs at less than 40W in as printer is idling.

Easy Replacement for Consumables

The front loading design of the HiTi P510K photo kiosk allows for easy access to the ribbon and paper roll resulting in easy and efficient maintenance procedures.

Standalone Operation

Utilizing a graphic user interface on a 10.2-inch TFT LCD touch screen, it is very easy to operate the P510K.

Less-Click to Print

With less clicks and intuitive user-interface design, printing a photo can be a much easier and faster experience.

Varied Printing Formats in 1 Machine

The HiTi P510K offers users the versatility to print various photo sizes from 4"x6" to 6"x9".
